ADMINISTRATION REPORT, 1887-88.

No. 405 of 1888.

To

G. F. SHEPPARD, Esquire,
Commissioner, Northern Division.

Ahmedabad, 1st August 1888.

Sir,

I have the honor to submit, as usual, my administration report for the year 1887-88 which closed yesterday.

Her Majesty's Reply to the Tálukdárs' Jubilee Address.

2. In my last year's report an account of the Jubilee celebration at Ahmedabad by the Tálukdárs was given, as also a copy of the address of congratulation sent to Her Majesty by the Tálukdárs. To this address Her Majesty has been graciously pleased to send a reply which is conveyed in a letter* from Government in the Political Department, No. 719 of 31st January 1888.

* Not printed.

3. This reply has been translated into Gujaráti, printed and distributed among the Tálukdárs.

Tálukdárs' Jubilee Memorial Fund.

4. It was also stated in last year's report that the Tálukdárs had raised a subscription among themselves in order to found some permanent memorial in honor of the Jubilee. A sum of Rs. 19,212 has, up to date, been collected, from which expenses, in connection with the Jubilee, amounting to Rs. 1,303, have been defrayed, and Rs. 17,909 have been deposited with the local branch of the Bank of Bombay, an account being opened under the heading of "The Tálukdári Settlement Officer, Gujarát, on account of the Jubilee Fund of the Thákors and Tálukdárs of Gujarát." Of the sum subscribed up to date, Rs. 5,550 remain to be collected.

5. As stated in last year's report, the want of a Tálukdári school at Ahmedabad is much felt; and it is intended, though not finally settled, to devote the fund to this object. The chief difficulty in the way is the want of funds sufficient to buy, build or hire a suitable school-house (in which the students can be kept as lodgers) and to meet the expenses of the school, supplemented, as they would be, by fees levied from the boys. I endeavoured to obtain a gift or a free use of the Government building known as the "Gáekwar's Haveli" for a school-house, and with this object sent a memorandum† to the late Collector of Ahmedabad, Mr. Reid, after consultation with him.

† Not printed.

6. Mr. Reid, I believe, sent this memorandum on to you or to Government; I understood from the conversation with you some time ago that the proposal had enlisted your sympathy. But no definite result has yet been known. I am going to address you officially on the subject in a separate communication with a view to elicit definite orders of Government. If a school could be started at once, I have at present in view about 20 boys who could be made to avail themselves of its benefit.

His Excellency the Governor's visit to Ahmedabad.

7. His Excellency Lord Reay, accompanied by Her Excellency Lady Reay, paid a visit to Ahmedabad in December last. An influential deputation of the Tálukdárs, consisting of the Thákors of Koth, A'mod and Gángar and other Thákors waited upon His Excellency and presented him with an address‡ of welcome, which was read by the young Thákor of Koth.

‡ Not printed.

133401

8. In reply His Excellency said that he appreciated, and was much gratified by the sentiments of loyalty the address conveyed, and gave most valuable advice to the Tálukdárs, which some of those present needed very much. His Excellency exhorted them in earnest terms to educate their sons properly, which, he remarked, was the best inheritance they could give them, and advised them in a very impressive manner to manage their estates properly, to keep their expenses within proper bounds and not to run into debt. After this the deputation thanked His Excellency and withdrew. His Excellency was attended by the Commissioner, N. D., Mr. Sheppard, the Collector of Ahmedabad Mr. Reid, the Private Secretary Mr. Monteath, and the Tálukdári Settlement Officer Mr. Pestanji Jahángir, C.I.E.

The regular work of the year.

9. The following table shows at a glance the total number and revenue of estates of all descriptions under management, and of the Tálukdári villages in Ahmedabad under revenue charge, in the year under report :—

	Number of Estates.	Aggregate Revenue for collection, 1887-88.	Amount realized by sale under Decrees.
		Rs.	Rs.
Ahmedabad Tálukdárs under Act VI of 1862, Appendix I....	33	57,367	...
Ahmedabad Tálukdárs removed from Act VI of 1862 but continued under management, Appendix IA. ...	9		
Kaira Thákors under Act XXI of 1881, Appendix II ...	52	93,498	...
Broach Thákors under Act XXI of 1881, Appendix III..	10	1,42,293	...
Minors' estates under Act XX of 1864, Appendix V ...	37	54,160	...
Miscellaneous estates managed, Appendix VI	5	23,735	...
Estates managed under attachment for default, &c., Section 144, Revenue Code, Appendix IX	9	77,991	...
Estates—			
(*a*) Managed under Section 320, Civil Procedure Code, Appendix X, Part I	133	35,814	...
(*b*) Sold under Section 320 ... } Appendix X, Part II.	2	.....	1,241
(*c*) Under process of sale ... } Appendix X, Part II.	32	.....	...
Estates managed under Section 504 of Civil Procedure Code, Appendix XI	16	10,923	...
Total ...	338	4,95,781	1,241
Tálukdári villages under revenue charge	356	3,71,508	...

10. The different classes of estates shown in the table above given are noticed at some length below :—

Encumbered Estates in Ahmedabad—Act VI of 1862.

11. The number of estates under Act VI of 1862 at the beginning of the year was 33. No new estates were taken under, and none was released from, management during the year. These estates are shown in Appendix I.

12. The nine estates, which were before removed from management under the Act owing to the period of 20 years having expired in their case, but which are still under management, are shown in Appendix I A.

13. Of the estates at present under management—

18 are directly managed by this office,

19 are managed by the Tálukdárs under the supervision of this office, and

5 are managed by creditors under special arrangement.

14. No advances were taken from the Government treasury during the year.

15. The financial position of all the estates is shown in Appendices I and I A. An abstract of these statements is contained in Appendix IV, from which it will be seen that Rs. 4,195 were paid to private creditors and Rs. 13,971 to Government; and that a total sum of Rs. 1,75,376 remains to be paid, of which Rs. 55,123 are due to private creditors and Rs. 1,20,253 to Government.

16. The payments made on account of debt settlement during the year under report compare with those of the previous year as follows :—

	1886-87.	1887-88.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	2,07,862	1,87,174
Paid during the year	26,330	18,166
Amount ordered to be paid and not yet adjusted	2,367	2,411

17. It will be seen that the payments of the year under report are less than those of the previous year. This is due to the very unfavourable season.

18. The average payment for the year under report is 9½ per cent.

19. There were 20 estates which stood indebted to Government at the end of the last year. The number of such estates is the same at the close of the year under report.

20. Nine of these are no longer under the Settlement Act, as the period of 20 years' management has already expired. But in all these cases mortgage bonds have been taken from the holders of the estates for the satisfaction of debt remaining due to Govenment.

21. As already reported, two estates in Bela under Dhandhuka were brought under the Act last year. My report upon the claims against these estates was submitted on the 17th July 1887, No. 380. The following is the result of the settlement of the claims :—

	Number of Claims.	Amount of Claims.	Amount awarded.
		Rs.	Rs.
Vikábhai Dosábhai, &c.	23	12,245	7,986
Jethábhai Wastábhai, &c.	24	7,991	5,750
Total ...	47	20,236	13,736

22. It will be seen that the settlement has resulted in a reduction of the amount of the claims to the extent of Rs. 6,500, or about one-third of the amount claimed.

23. This case affords another illustration of the way in which the Táluk-dárs try to come under the protection of Act VI of 1862 by misrepresenting their assets and liabilities. Before bringing this estate under the Act careful enquiries were made through the Mámlatdár of Dhandhuka to ascertain the correctness of the figures given by the applicants. But it now appears that, owing probably to the inherent difficulty of finding the truth beforehand in such cases, the result of the enquiries was fallacious. This result showed that the assets would suffice to discharge the debt within a reasonable period. In my report (No. 157 of 14th April 1887) on this case I gave the probable annual income of the estate at Rs. 2,400 ; but one year's actual management has shown it to be Rs. 970. Certain allowance must be made for this year's bad season ;

but still there is much difference between the estimate and the actual result. And though actual experience has brought the misrepresentation to light, the estate cannot be removed from the Act after having been once put under it. Nor can any part of the estate be sold to discharge the debt without the Tálukdárs' and their next heirs' consent. All this is owing to defects in the Act, and the defects are all in favour of the debtor.

24. There is another kind of fraud which the Tálukdárs have learned or have rather been taught by astute Banias to practise. Before taking steps to come under the Act they pass a few fictitious bonds for money without receiving little or no consideration; and when claims are preferred before the Tálukdári Settlement Officer on the strength of these bonds, they admit the claims. This is done, in some cases, as a means to reward the Banias who manage the business of bringing them under the Act, and, in some cases, with the object of themselves receiving, wholly or partly, the amounts of the awards when the creditors are paid off by an advance from the Government treasury.

25. The estate of Makhiáv in Sánand has, this year also, not been able to make any payment in reduction of the debt due to Government. The period of five years for which it was leased out having expired last year, the lease was again put up to auction; but the bid made being very low, I declined to accept it, and managed the estate by a Taláti. Owing, however, to the badness of the season, the income has been only Rs. 6,654 which, together with Rs. 2,811 realized by the lease of a part of the estate in Dholka, comes to Rs. 9,465, out of which the Government *jama*, Rs. 3,233, has been recovered, and a sum of Rs. 1,500 has been paid on account of the interest due on the Government loan. From the remainder will be defrayed the expenses of management and other charges, such as the maintenance of the minor Thákors, &c.

26. The necessity of repairing the large bund at Makhiáv, on which depends the prosperity of the village, was referred to in a previous report. But, owing to want of funds, the work could not be taken in hand. As, however, it could no longer be delayed without a serious diminution in the income of the estate, I have arranged to borrow a sum of Rs. 2,000 from an Ahmedabad banker, and a great part of the repairs has already been made. A fourth of this loan will be paid by a 4-anna sharer in the estate, who is not under the Act; and the whole loan will be liquidated from the proceeds of the cess levied on the water taken from the bund.

27. Measures have also been taken to build a small bund in Samáni, a village of this estate in Dholka, with the object of converting some khár land, which is at present uncultivable waste, into rice land.

28. The Bhágbatái or the crop share system of rent obtains in this as in most other Tálukdári estates in Ahmedabad. This system, though excellent in itself and fair in the long run to both the landlord and the tenant, is not suited to cases where large estates are concerned and where the owner is consequently unable to manage his property personally, as it is fraught with abuses at every step, when worked, as it necessarily must be, through the agency of Kárkúns and Talátis. In a portion of the Makhiáv estate, therefore, I have, with the consent of the cultivators, introduced the cash rate system from this year. The rates fixed are about 1½ the survey rates in dry-crop lands and double the survey rates in rice lands. If this partial introduction of the cash rate system is found beneficial to the cultivators, who are exempted under it from a variety of demands made on them under the crop share system, it may induce the other cultivators to apply for it for themselves.

29. As stated in previous reports, Bulákhi Modji and Válji Modji had failed to pay the stipulated amounts from the income of their estates towards the satisfaction of their debts, and I had, in paragraph 36 of last year's report, promised a separate communication on the subject. But as reported in my letter No. 63 of 24th January last, I have, this year, reduced the amounts of their leases and allow the management of their estates to remain with them, subject to the payment of the reduced amounts. They have paid these sums this year, but the arrears due on account of previous years have not been discharged.

30. Punja Vikamsi, also referred to in paragraph 36 of last year's report, was found to be too unreliable to be trusted. His estate was taken under direct management, and has this year yielded Rs. 1,000.

31. In my last year's report I have dwelt at some length on the condition of the Thákardas of the Chuwal in Viramgám, and on the manner in which they are defrauded by unscrupulous money-lenders. I will not now trouble Government with any more tales of the same kind. But I will quote only one case.

32. The estate of Aghár was once cleared of its debt to the extent of thousands of rupees under the Encumbered Estates Act (VI of 1862). It was *again* involved to the extent of thousands of rupees, and *again* extricated by a sort of private settlement by this office. But there is no end to the process of its being preyed upon. It is going on as briskly as ever. Not to speak of the decrees which have, ere this, been executed and satisfied, there are at present 18 decrees against this estate, pending execution in my office. The aggregate amount of these decrees is upwards of Rs. 82,700, and as all of them bear running interest, some of them at 9 per cent., the amount goes on increasing from year to year. The income of the estate is hardly sufficient to pay even the interest. There is, therefore, no prospect of this so-called debt being ever paid, if the decrees are to be satisfied by attachment of the estate. But if by any possibility it can be cleared in this manner at some remote period, *i.e.*, by attachment and not sale of property, it would be a great mistake to suppose that at the termination of that period the Thákardas and their estate would be free from the grip of the Banias. No, the manufactory of debt is constantly at work. There is action and reaction going on at the same time. While, on the one hand, the decrees are being satisfied in this office, there is, on the other, fresh debt being created in the books of the Banias, for which new decrees will in due course of time come in for execution. The Banias of Viramgám follow the example of nature in its law of continuity. There is no break. A break would be as much of a miracle here as a break in the continuousness of natural phenomena.

33. There is, as above stated, no prospect of the principal of the amount of the several decrees being ever paid by attachment of the property. Either the property must be sold, or the creditors (the so-called creditors) must be satisfied with receiving sums of money annually on account of interest, the principal remaining intact. And, strange as it may appear to those unacquainted with the real character of these transactions, the creditors generally prefer the latter course. Even in cases where they have a right by law to demand the sale of the property mortgaged to them, they are not anxious to receive their money immediately by sale, but ask for the property to be taken under attachment and to be given annually such sums as can be got out of it. For reasons which it would be too long to explain, sale would not pay them; they generally have, therefore, recourse to attachment. By this method they have created perpetual annuities for themselves and their descendants. These annuities are as safe as investments in Government securities. Sitting comfortably at home, they receive them without any trouble or expense. Trouble there is none, because the whole State machinery of collection is placed at their disposal. Expense there is none, because it is all charged to their unfortunate victims over and above the fraudulent debts. Can there be a happier state of things for them?

34. Aghár, as stated above, was taken under the Encumbered Estates Act in 1864, and, at least, ever since then, *i.e.*, since the last 25 years, its condition has been one of constant indebtedness and constant attachment. At this moment there are decrees against it of Rs. 82,700, not to speak of other unknown debt. So, its normal condition is one of attachment from year to year, and, it might be said, from generation to generation; and this means a condition of perpetual destitution and semi-starvation. Aghár is not a solitary instance. But how long is this to continue, and is it a satisfactory state of things to be allowed to continue in the case of an ignorant people given to thieving and robbing and who are, like rabbits, multiplying rapidly, untroubled by Malthusian scruples. I humbly think that the question deserves some attention.

35. I have also, in my last year's report, referred to the Gangar estate—one of the largest estates in Ahmedabad—to its utterly embarrassed condition and to the enormous difficulties in the way of its extrication from that condition.

36. One of the suits referred to, that brought by the surviving widow of the late heir-apparent, Bhaisáheb, for the recovery of a village, has lately been decided by the First Class Subordinate Judge of Ahmedabad. The effect of this decision is to add a lump payment of rupees twelve thousand and an annual charge of rupees three thousand to the already heavy liabilities of the estate. This decision, which appears to have been passed under some misapprehension of the requirements of the case, and of the real condition of the estate, has been appealed against.

37. The suit—the most important and serious of all—brought by Juwánsingji, the alleged posthumous son of Bhaisáheb, the late heir-apparent to the Gangar estate, to establish his right, as against Nánbha, to succeed the late Thákor Gagubha Abhesingji in the Thákorate of Gangad, is pending in the Court of the First Class Subordinate Judge at Ahmedabad. The fate of Nánbha depends on the result of this suit.

38. The wheat and cotton crops of the estate for the year under report promised in the beginning to turn out well; but the later unseasonable rains did them much harm, and owing to the scanty early rains the rice crops also suffered. The revenue has not been what might otherwise have been expected. It is estimated to be about Rs. 48,000, from which the Government *jama*, Rs. 18,893, inclusive of the local fund cess, has been recovered; and the remainder has been devoted to the payment of debt and management and other charges.

39. As you are aware, the estate is under attachment for the security of Government *jama*. But several most valuable villages of the estate have been mortgaged to a syndicate of bankers for a debt of Rs. 1,07,000. This debt was contracted in September 1884, and bears interest at nearly nine per cent. per annum. As nothing was paid to these creditors up to the death of the late Thákor in January 1887, this part of the debt of the estate amounted to about Rs. 1,29,000 up to that date. Soon after the estate was placed under attachment these creditors demanded that the villages mortgaged to them should be made over to them in pursuance of the agreement passed by the late Thákor. But an arrangement has since been made by which they receive the surplus revenue of the mortgaged villages after deducting the Government *jama* and other charges. On my representation and under the advice of the Legal Remembrancer, Government have, in Resolution No. 6607 of 30th September 1887, sanctioned the payment to these creditors of the surplus revenue of the mortgaged villages. I have up to date paid them Rs. 15,600.

40. The debt other than the secured debt of the estate, that is, Kháta or account debt, is also very considerable. The owners of these claims having threatened to file suits and thereby add law charges to the already heavy liabilities of the estate, I, at first, thought it would save much expense and trouble if the claims were privately looked into, and then settled by arbitration. But when the work of examining the accounts commenced, it was found that, though the creditors produced their "Khátas" or accounts, purporting to have been signed by the late Thákor in some cases, and not signed at all in other cases, none of these items of debt was, with one exception, credited in the Thákor's regular account books, such as the daily journal, &c. At the time his signature on the "Khátas" is said to have been made, the Thákor was quite blind, and though the signature may be genuine, it will be easy to cast suspicion on it. These and other circumstances have deterred me from taking any share in the responsibility of admitting such claims, in however fair a manner the claims may be admitted. I have, therefore, informed these creditors that I would take no action in the matter, but that if they liked they might seek their legal remedies and have their claims decided upon by the Civil Court. Some of them have settled their claims with Nánbha direct by arbitration.

41. Though owing to the heavily embarrassed condition of the estate, any portion of its revenue can be ill-spared for the purposes of improvement, I have laid out small sums of money in making new "Bunds," by which lands hitherto lying waste will be brought under rice cultivation.

42. I have also introduced in the village of Dhedhál uniform bighoti rates in place of rates (called Janaswári bighoti) which varied every year according to

the nature of the crops sown, and which caused much confusion and was a source of abuse.

43. I much regret to have to say that Nánbha, the late Thákor's only surviving son and heir, gives no promise of any capacity or desire to manage his estate properly when he comes in possession of it. Though now about 19 years of age, he is not at all alive to the gravity of the situation in which he is placed by the dispute in the Civil Court about his succession to the estate, and does not show the least concern about it. But ask him to marry a new wife and he will spring to his feet, perfectly reckless of the consequences of such an act in the present state of his affairs. His first wife being alive, he has just married another, and is ready to go in for more. He is prodigal in his expenses and is giving himself up to improper indulgences.

44. The villages known as the "Kasbáti" villages in the Viramgám Táluka are six in number. They are held on leases, which have also expired along with those of the Tálukdári villages in the Ahmedabad Collectorate. In my letter No. 608 of 20th December 1887, I requested instructions whether the lease was, in each case, to be renewed with a moderate increase on the present amount, or whether the amount of the new lease was to be fixed on a graduated scale at a certain percentage of the survey rental; and Government have, in Resolution No. 1261 of 23rd February 1888, desired that the renewal of the leases be deferred till the introduction of the revision settlement into the Viramgám Táluka.

45. Motan Bibi, one of the Kasbáti-holders in Viramgám, having died, leaving a daughter, Sáheb Bibi, who claimed her mother's villages, I reported on the case in my letter No. 25 of 7th January 1888, and Government have ordered, in Resolution No. 1821 of 17th March 1888, that "the lease should be granted to Sáheb Bibi on the previous terms, pending revision of the survey settlement which takes place next year." The villages of Wani, Thori Wadgas and Thori Mubárak, which were attached pending Government orders, have been released from the attachment and restored to Sáheb Bibi.

46. During my last tour I visited nearly all the Kasbáti villages of Viramgám, and found that in many of them the relations between the landlord Kasbátis and their cultivating tenants were much strained. The cultivators complained of the extortionate demands of the Kasbátis, who, in their turn, complained of the cultivators having been incited to a spirit of resistance by Bania money-lenders, whose attempts to come into the occupancy of the cultivators' lands they would not allow. I found there was some truth in the latter story, and impressed upon the cultivators the ruinous consequences to themselves of their falling into the meshes of the Banias; and I also impressed upon the Kasbátis that they should never allow Bania money-lenders to be registered as their tenants. But the cultivators' complaints of the Kasbátis' exactions also deserve attention; and I think it would be well if, when the new leases are granted, a condition were inserted that the villages should be surveyed and assessed and managed under the cash assessment system, the maximum limit of the cash rental being prescribed by Government.

47. Bápumia Shermia of Dholka holds 11 villages in farm, and is allowed a certain remission from the survey assessment of these villages. The villages have been given on these favourable terms for the maintenance of the family in consideration, as you are aware, of the resumption of their Kasbáti villages. The lease of these villages having also expired, Government were pleased, in Resolution No. 4717 of 2nd July 1886, to sanction its renewal. In the recent revised settlement of the Dholka Pargana the survey assessment of these 11 villages has increased from Rs. 22,316 to Rs. 28,115; and Government have, in Resolution No. 1618 of 9th March 1888, been pleased to allow Bápumia a proportionate benefit in the increase. The resolution says "the *jama* should bear the same proportion to the revised assessment as finally sanctioned which the present *jama* bears to the present assessment, discarding odd sums below Rs. 10."

48. It should be noted, however, that though the lease is in the name of Bápumia alone as the senior representative of the family, he has no exclusive

right to its benefit. His brother, Nánumia, who has become almost idiotic by opium eating, has an equal share in it.

49. Under the settlement made many years ago of their claims the Girássias of Dholera hold eight villages on a tenure which may be said to resemble the Tálukdári tenure. There are two "pátis" or sections of these Girássias, each of which holds four villages, the income of which is divided among a number of sharers. But in addition to these villages they have held from the first jivái lands in Dholera, reserved to them by the agreement entered into with them in the early part of British rule. But some years ago it was discovered that they held jivái lands much in excess of the quantity (6,000 bighás) reserved to them by the agreement. The correspondence on the subject which commenced many years ago has only recently terminated by your order No. 1140 of 13th April 1888, directing the levy of the summary settlement quit-rent from the lands held in excess, about 2,925 acres. The summary settlement quit-rent imposed is Rs. 205 per annum.

50. The season this year was very bad throughout nearly the whole of the Ahmedabad District. Owing to scanty early rains the outturn of the kharíf crops, especially rice, except in places where water was conserved, was very poor; and the later rains which fell at an unseasonable time did much damage to the wheat and cotton crops. Since the last three or four years the cultivators in this district have been suffering from scanty or capricious rainfall, ravages of insects or other causes. The Government *jama* this year has, however, been collected except only a small sum of Rs. 95.

Encumbered Estates in Kaira, Act XXI of 1881.

51. The encumbered estates in Kaira and Broach are managed under Act XXI of 1881.

52. There is nothing particular to record in regard to Kaira. By the terms of the Act no further admissions are allowed. The number of estates under management has, therefore, remained the same as before—52.

53. No advance from the Government treasury has been taken during the year under report.

54. The financial position of each of the 52 estates is shown in Appendix II, and an abstract of this statement is contained in Appendix IV, from which it will be seen that Rs. 132 were paid to private creditors and Rs. 30,416 to Government; and that a total sum of Rs. 2,59,060 remains to be paid, of which Rs. 10,085 are due to private creditors and Rs. 2,48,975 to Government.

55. The payments made on account of debt settlement during the year under report compare with those of the previous year as follows:—

	1886-87.	1887-88.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	3,04,360	2,76,222
Paid during the year	39,722	30,548

56. It will be seen that the average percentage of payment is 11.

57. The estate of Bhánpura has paid off its debt settled under the Act. But a fresh claim has been preferred against the estate, which will shortly be reported on for your orders. If the claim is allowed, the estate will continue under the Act till it is paid off; otherwise, it will be released from the Act. But though it may be removed from the *Act*, the Thákor desires that it be not removed from *management*, but continued under it for some time. On this point also orders will be solicited hereafter.

58. As stated in last year's report, only those creditors of Rattansing of Kaira, who are secured on house property, now remain to be paid. All the other debt has been discharged. I shall shortly apply for a loan from Government to pay off the creditors just referred to.

59. The sales of the lands of Fattesing Bápuji and Bái Surajba, referred to in paragraph 74 of the last year's report, have been completed this year, and the money realized has been paid in part payment of the debts due by the estates to Government. The sale-proceeds of the land in the case of Surajba have paid off more than half of the Government debt. As the burden of debt against her has thus been reduced, her maintenance allowance, which was insufficient, has been increased.

60. Arrangements have heen made to sell, this year, some more lands belonging to Fattesing Bápuji. The particulars of the transaction are as shown in the table below:—

Survey Number.	Area.	Survey Assessment.			Actual Rental.			Sale-Proceeds.	How many years' purchase of Survey Rental *minus* Salámi.	How many years' purchase of actual Rental *minus* Salámi.
		Amount.	*Minus* Salámi.	Net Rental.	Amount.	*Minus* Salámi.	Net Rental.

61. The figures in the last two columns will be found interesting as showing the number of years' purchase the rental of the lands in question have fetched.

62. Some other estates in Nápa are also in the same predicament as those referred to above, that is, there is hardly any surplus revenue from which the Government debt can be discharged within a reasonable period. It will, therefore, be necessary to sell some lands of these estates also. But for this purpose I am waiting for some good offer, as in the instances above given.

63. This year's payments towards the liquidation of the debts of some of the estates have been less than those of the previous year. This is principally owing to the last year's payments having been made from the accumulated balances of previous years.

64. The estates of some of the Thásra Maleks, when brought under the Act, were in a much embarrassed condition. But in the course of five years that they have been under management, their prospects have much improved. More than half of the debt has been paid off, and the doubt as to their easy solvency, which was at first felt, no longer exists. In consequence of this improved condition, I am thinking of granting some small maintenance allowances in cases where originally none was given.

65. The season was bad this year, though not so bad as in Ahmedabad and Broach. The Government *jama* has all been collected.

Encumbered Estates in Broach, Act XXI of 1881.

66. As in Kaira, the number of estates in Broach under Act XXI of 1881 is the same as in previous year—10.

67. With the exception of two (Nos. 8 and 10 in Statement III) all these estates have had advances given by Government. Advances for estates Nos. 8 and 10 will be applied for when their circumstances permit of my doing so. No advance has, therefore, been taken this year.

68. The financial position of each of the 10 estates is shown in Appendix III. An abstract of this statement is contained in Appendix IV, from which it will be seen that Rs. 3,602 were paid to private creditors and Rs. 48,770 to Government; and that a total sum of Rs. 1,15,532 remains to be paid, of which Rs. 44,273 are due to private creditors and Rs. 71,259 to Government.

69. The payments made on account of debt settlement during the year compare with those of the previous year as follows:—

	1886-87.	1887-88.
	Rs.	Rs.
Total debt outstanding at commencement of the year ...	1,86,745	1,61,980
Paid during the year	31,631	52,372

70. The average payment made during the year is at the rate of 32 per cent.

71. This high percentage is due to the A'mod Eestate having paid off its debt in full from a large refund it has received from Government as explained in paragraph 75 of this report.

72. The allowances of the Thákor of A'mod and his sons referred to in paragraph 84 of last year's report, have since been liberally increased. But as the estate has, from the current year, been released from management and restored to the Thákor, it will rest with him to continue them.

73. The question of allotting jivái to the Thákor's younger sons during his life-time, and thus preventing their falling victims to the wiles of unscrupulous vakils, and inovlving the estate in ruinous litigation after his death, referred to in paragraph 85 of the last report, has not been settled, and, I fear, is not likely to be settled. As far as I can see, the old Thákor has shown himself amenable to reason and persuasion. He has prepared four equal shares for his four younger sons, and has given Harising, who distrusts his father's fairness towards him, the option of choosing whichever he liked. But Harising raises objections and shows no disposition for any fair settlement. Mr. Mackenzie, Collector of Broach, interested himself in the matter, but his endeavours have not been successful, owing to Harising's impracticable attitude.

74. It was stated in last year's report that Messrs. Gibb and Fernandez, appointed by Government to enquire into the claims of the Thákors of A'mod and Kerwára to exemption from the summary settlement cess imposed upon certain lands of their vántas under the name of "Wadháro," had submitted their report. Government have since decided the case in favour of the Thákors, and have ordered the refund of the cess levied from them.

75. The Thákor of A'mod has received upwards of Rs. 36,000 as refund, and this windfall has enabled him to discharge the balance (about Rs. 31,000) of the loan taken from Government to pay off the creditors of the estate. The estate has, therefore, been removed from the Act, and restored to the Thákor from this day. A notification, as required by Section 26 of the Act, was submitted with my letter No. 341 of 2nd July 1888, and has already been published in the *Government Gazette.*

76. This is the largest estate in Broach, its revenue being about Rs 65,000 per annum. It came under management as an Encumbered Estate in 1871 and remained under management for 17 years. During this period a debt of Rs. 2,47,684 has been cleared off in addition to Government *jama* at the rate of Rs. 17,318 a year, and large sums of money paid to the Thákor for maintenance and various other purposes. The Thákor is a very shrewd, wary old man, with plenty of experience of the world, and not untried by adversity. His heir-apparent, though not quite a chip of the old block, is a fair specimen. I believe, therefore, that the estate, if not torn by internal dissensions, is likely to be well managed in their hands.

77. The Dehej Estate under Vágra has also cleared off its debt due to Government. It has accordingly been released from management and restored to the Thákor from to-day. The necessary notification has already appeared in the *Government Gazette.*

78. This estate came under the Encumbered Estates' Act in 1871. The claims of creditors awarded by this office amounted to Rs. 19,852. This sum was borrowed from Government and the creditors were paid off. The Government loan is now discharged together with interest, and the estate has been

handed back to the Thákor as above stated. The Thákor is a young man of about 22 years of age, and has neglected his education in spite of the efforts made to press it on him. He, at one time, fled from the protection of his mother and surreptitiously married a new wife. He has, at present, got three wives; and he hinted to me, only the other day, that three was not an auspicious number as regards wives, meaning thereby that he contemplated making a fresh addition to the existing stock. I fear he will soon be in debt again.

79. The money remaining due on account of the settlement made, as stated in paragraph 88 of the last year's report, of the claims of the Baroda creditors of one of the sharers in the Khandali Estate, has been paid this year. Rs. 2,300 and odd have been paid. Owing to this payment and certain law charges incurred on account of the estate, I have not been able to give anything on account of the debt due to Government. Only the interest due on this debt has been paid.

80. The suit regarding the Sárod Estate, referred to in paragraph 87 of my last year's report, has lately been dismissed by the Assistant Judge at Broach on the ground that it had been brought only on a Rs. 10 stamp paper in order to evade the full court-fee. The case has not been decided on its merits. The decision has not been appealed against, and it remains to be seen whether the vakils and Mahomed Ismael, who had undertaken the suit as a speculation, will rest content with this decision, or will bring a new suit. I think they are not now likely to do anything further.

81. The season this year was as bad in Broach as in Ahmedabad.

MINORS.

82. There were 38 minors' estates under Act XX of 1864 brought over from previous year. Two were added and three released during the year under report, making a net total of 37 at the close of the year.

83. In four cases, though the eldest sons have attained their majority, their younger brothers are still under age; and as, in one of them, the Civil Court has desired the management to remain in the hands of the Collector till the younger brothers become of age, the estates in all these cases have not been removed from the Minors' Act.

84. With the exception of three in Broach, all these estates belong to Ahmedabad.

85. The Kázi of Broach, Ahmedhusen Nurudinhusen, having attained his majority, his estate has been removed from management under Act XX of 1864. But the Kázi having petitioned for the continuance of the managament in the hands of this office until his debts were paid off, Government have, in Resolution No. 5488 of 18th August 1887, desired that "in the circumstances represented by the Kázi the Tálukdári Settlement Officer may be permitted to continue the management of the Kázi's estate, after the Civil Court has passed the necessary order under Act XX of 1864 on his attaining his majority, for such period as may be requested by the Kázi. It is understool that all the authorized expenses of management will be charged as heretofore to the estate." The estate is removed from the list of minors' estates under Act XX of 1864, and transferred to the head of "Miscellaneous," which is treated of in a subsequent part of this report.

86. The estate of the Thákor of Mátar under Broach continues in a very good condition. It has to its credit Government paper of the value of Rs. 10,000, and from this year's revenue there is a surplus of upwards of Rs. 2,000, besides a large amount which remains uncollected, owing to the badness of the season. The family has had liberal allowances granted for their maintenance.

87. The tardy realization of the rental of the lands of this estate situated in Baroda territory was referred to in the last and previous reports. It was due for three years when, only very lately, I received it for two years, and that too not wholly.

88. The suit brought by some of the collateral relations of the late Thákor, and referred to in previous reports, to contest the genuineness of the present boy

Thákor, has lately been dismissed by the Assistant Judge of Broach for want of proper valuation of the property for the purposes of court-fees. It is not known whether the parties have taken any further action.

89. The estate of Ráesing Jibáwa is indebted to the extent of about Rs. 13,300, the greater part (Rs. 10,500) of which is secured on the mortgage of land at nine per cent. per annum interest. As the mortgagee has made a demand for his money, I am thinking whether it should not be borrowed from one of the minors' estates in my charge, which have cash balances to their credit. At 6 or 7 per cent. interest the arrangement will be beneficial to both the borrowing and the lending estates, as the one will get the benefit of reduction in the rate of interest, and the other will have a safe investment for its money at a higher rate of profit than can otherwise be had consistently with safety. The arrangement, if carried out, will require the sanction of the Civil Court; and I have, for the present, reserved the question for further consideration.

90. One new estate has been added under the head of "Minors" in Broach —that of Jitsingji Bháratsingji of Jhanor. Its income is about Rs. 12,000 a year, Rs. 7,000 of which are derived from a Todágiras allowance payable by Government. The arrears of this allowance have accumulated to the large sum of Rs. 65,000; and the question of their payment is now before Government, as stated in your No. 1095 of 10th April 1888.

91. The remaining estates are all in the Ahmedabad district. Only nine of them are unencumbered, the rest being all encumbered.

92. The unencumbered estates are those of Lákhábhai Karsansing of Pipli, Nathubhai Wallibhhai of Gadhia, Bhura Jasa of Nágarka, Becharsing Falji of Pánchi, Narsing Madársing of Akru, Himatsing Mobatsing of Bhankora, Oghad Mádhavsing of Kundal, Gagubhai Kálubhai of Báhdi and Nathubhai Kánubhai of Ránesar, which have sums of money to their credit as shown in Appendix V.

93. As stated in the last report, Lákhábhai Karsansing of Pipli has already attained his majority; but his estate has not been handed over to him, as it was understood that his mother was desirous of continuing the management in the hands of this Department for some time longer. On this subject the report of the Mámlatdár of Dhandhuka is awaited.

94. Of the encumbered estates, those of Subámia of Ránpur and Gagubha Dipsingji of Rojka have, this year, reduced their indebtedness to Rs. 2,000 and Rs. 6,000 respectively.

95. But Subámia's mother has made a demand for Rs. 10,000 for his marriage expenses. The requisition was made last year, but I then put it off. It has been renewed this year, though there seems to be no particular hurry for the marriage. But if it cannot be delayed any longer, as the parents of the bride are said to insist on its taking place soon, a new debt will have to be incurred, though the request for such a large sum as Rs. 10,000 cannot be complied with in the present circumstances of the estate.

96. Gagubha Dipsing of Rojka is only about nine years of age; but his mother wanted to betroth him, and, with that object, applied for a sum of money. I have, however, sent her a refusal, and have informed her that Gagubha being yet a child, no such expense would be allowed until, at least, the estate was cleared of its debt.

97. A part of the debt of the estate of Udesing Agarsing and others of Cher, which amounts to about Rs. 4,000, bears interest at the rate of 12 per cent., and most of the lands of the estate are in the possession of the creditor, who renders no satisfactory account of the income. The estate thus suffers, not only from the heavy rate of interest, but also from not receiving the full benefit of its income. I have, therefore, with the sanction of the Civil Court, negotiated for a new loan at 7½ per cent. interest, with the view of paying off the present creditor and making an arrangement, whereby the lands will come under the management of this Department. If, as I expect, the creditor will make difficulties in delivering up the lands, legal steps will have to be taken to dispossess him.

98. There are two minors, brothers by different mothers, in the Makhiáv Estate under Sánand, which is also under the Encumbered Estates Act VI of 1862. The mother of the younger boy died only a few weeks ago, and the poor child is now motherless as well as fatherless; and as great animosity exists between the two parties representing the two minors, care will have to be taken of him and his interest in the estate.

99. The estate of Rámsingji Nársingji of Bhadiád and Dalumia Mirsáheb and others of Paránțij are only nominally under management here. All the lands of the estates are in mortgage with creditors; and that in Bhadiád is ordered to be sold by the Civil Court at the instance of a judgment-creditor.

100. The estate of Gagubha Bhupatsing of Kharad is also given in mortgage to a creditor, some land only being reserved for the maintenance of the minor.

101. A few bighas of land are all that is left of the estate of Ahmedmia Pirmia and Bákarmia Pirmia of Kotda, the rest having been all sold by the creditors; and even these few bighas have been attached by the Civil Court. I have given the two young men appointments of Mukhis, whereby they manage to maintain themselves and their families.

102. The debts of Madársing Chándábhai and others of Akru are being steadily reduced. They now stand at Rs. 2,378. The other estate in Akru, that of Nájibhai Málji, is a small one and makes only small payments for debt.

103. The estate of Dhanáji Gobarsing of Dekáwáda is hardly able to pay even the court-fee for the certificate of administration given to the Collector. The minor is a sharer in a joint estate, the whole of which is under attachment by the Civil Court.

104. The minors Ráesingji Jálamsingji and Mánábhai Vajesing of Jákhda are sharers in a joint estate, which is liable for a joint debt of Rs. 6,000. The estate is under attachment by the Civil Court.

105. There is hardly anything to manage in the estate of Ráesingji Tejábhai of Simaj and Bháijibhai Rámábhai of Wárna, the whole of their lands being in mortgage with creditors, except a few bighas remaining for their maintenance.

106. The estate of Prathiráj Khodábhai of Lákadia is under attachment by the Civil Court. It pays only a small sum annually for the debt which amounts to Rs. 802.

107. It will be seen from the preceding paragraphs that in many of the so-called estates of minors there is little or nothing to manage by this Department, the managment being only nominal.

108. Appendix V. shows that, putting all the minors' estates under the charge of this office together, the total realizations, including the previous year's balance, were Rs. 86,764, of which Rs. 35,634 were paid for Government *jama* and maintenance and other charges, and Rs. 51,130 were partly devoted to the payment of debt and partly carried as savings. The total amount invested in Government securities and deposited in Post Office Savings Banks is Rs. 28,950.

Education of Minors.

109. As already explained in a previous report, great difficulties are experienced in the education of minors. Unless the Collector, or his agent, the Tálukdári Settlement Officer, is vested with compulsory powers, no satisfactory results can be expected. There is, however, a tolerably fair record for the year under report. The Thákor of Jhanor under Broach has been sent to the Tálukdárs' School at Wadhwán. Much opposition was offered by the boy's relations against his being sent there, but fortunately the Civil Court overruled their objections. Special arrangements have also been made for the education of Chandrasingji Himatsingji of Mátar in Broach, Gagubha Ráesingji and Fulbha Ráesingji of Makhiáv in Sánand, Himatsing Mobatsing of Bhankora in Viramgám and Gagubha Dipsingji of Rojka in Dhandhuka, in their respective village schools. Arrangements have also been made for the education of the sons of the Thákors of Kherda and Kholwad under Kaira at Baroda. The young Thakore of Janiádra,

at one time, agreed to go to Wadhwán for his education, but afterwards made excuses and did not go. A gentle pressure, however, in the shape of stoppage of his allowance, has resulted in a promise to go there after the rains. The estate of the minor Kasbáti of Wanthal under Viramgám is not under my management; but when I was at Viramgám last February, I induced his guardian, Bái Májiráj, through her Kárbhári, to agree to send the boy to the Wadhwán School. But the most gratifying circumstance is that the intelligent and interesting little Thákor of Utelia under Dholka, who has already made good progress in his village school, voluntarily offered to go to the Rájkumár College at Rájkot. I put myself in communication with the Principal of the College and the Political Agent, Káthiáwár, and made the necessary arrangements; and young Sursingji has already begun to attend the college. I have great hopes of him. It gives me much pleasure to record, incidentally, an instance of the good sense of this promising lad. Though only about 12 years of age, great pressure was brought to bear on him by his near relations to engage him to a girl, in whom they were interested; but he refused to do anything of the kind until he had finished his education and attained a proper age. And in doing so he sought my intervention and aid, which I heartily and effectually gave. The idea has now been abandoned. This is in striking contrast with the matrimonial propensity which Nánbha of Gángar, greatly his senior in age and who presumably ought to have better sense, is fast developing.

110. It will be seen from the preceding paragraph how the sons of Tálukdárs under the jurisdiction of this office are scattered in different places for their education. If there be a central school at Ahmedabad, they could all be brought under one roof, placed under one charge, and properly looked after by one responsible agency.

Miscellaneous Estates.

111. As stated in a previous paragraph, the estate of the Kázi of Broach has, this year, been transferred from the head of "Minors" to that of "Miscellaneous." This, added to the four mentioned in last year's report, makes the total of estates under this head to be five.

112. Of these, two are in Ahmedabad, two in Kaira and one in Broach.

113. The debt of Musámia of Sháhállam, which was recorded at the time his estate was placed under the general supervision of this office, has all been paid off. But it seems he has incurred some other debt which is stated by his Kárbhári to amount to about Rs. 5,000.

114. The loan advanced by Government to Chándna was Rs. 4,058. As reported last year, this debt was reduced to Rs. 2,158. But a sum of Rs. 1,108 on account of arrears of salámi due by the village has been added, making the total of the debt to be Rs. 3,266. This year Rs. 250 have been paid towards the reduction of the debt. The condition of the village, as so often reported, is very unsatisfactory. I have this year laid out a little money in the plantation of bábul trees, which pay well.

115. The village of Dharoda in Mátar is managed in accordance with a Civil Court's decree with the mutual consent of its owners and their creditors. The debt, which was shown last year at Rs. 2,583, has, this year, been reduced to Rs. 1,183. This large reduction is owing to a sum of Rs. 1,567 realized this year from the sale of bábul trees in the village.

116. The remaining estate—that of Jaswatsing of Lolia in Dholka—calls for no particular remarks.

Comparison of Government Survey Rates and Rates actually levied in Estates under Management.

117. I have, this year, added a new statement (Appendix VII), showing the survey assessment, the actual rental levied, and the average percentage per acre of the latter over the former, in estates under my management, where the lands have been assessed by the Gujarát Revenue Survey. It will be seen that the minimum and maximum percentages by which the average actual rates levied exceed the average survey rates per acre are in—

	Minimum.	Maximum.
Ahmedabad	2	181
Kaira	4	220
and		
Broach	4	136

118. These statistics will be useful as showing the comparative weight of the survey rates levied by Government and the rates levied by private owners of land.

GENERAL REVENUE ADMINISTRATION OF TÁLUKDÁRI VILLAGES IN AHMEDABAD.

119. There are 356 Tálukdári villages in Ahmedabad under the revenue charge of this office, and their *jama*, inclusive of the Local Fund cess, amounts to Rs. 3,71,508 for the year under report.

120. With the exception of Rs. 95 in Awánia, Táluka Gogha, the whole of this amount has been collected. But it must not be inferred, that because nearly the whole of the amount due has been collected, the Tálukdárs have had no difficulty in paying it. Since the last three or four years this district has been suffering from some cause or another, and this year seems to have been the worst of them for most of the villages. Owing to scanty rain at the time when rain was wanted, there was little or no rice crop in the rice-growing villages; and the later unseasonable rains did considerable damage to the wheat and cotton crops. The injurious effects of the season have been felt in the estates under the direct management of this Department. The estate of Makhiáv in Sánand, though it has paid the Government *jama*, which is the first charge on the revenue after management charges, has not been able to pay fully even the interest due on the Government loan. The jamábandi of the village of Návda in Dhandhuka is Rs. 7,587, whereas its income, this year, has been only Rs. 6,467. Deducting from this sum the management and other necessary charges, there is a deficit of Rs. 1,870 in the *jama*, which the Tálukdárs have had to make up otherwise. Other instances could also be quoted.

121. Government have, in Resolution No. 8124 of 28th November 1887, passed orders for resuming the levy of *jama* from the hamlet of Hirápur in Sánand, which was held in abeyance, pending the decision of the Privy Council on the appeal of the Thákor of Kuwár. The Privy Council having decided in favour of the Thákor, the levy of the *jama* has, as just stated, been ordered to be resumed.

122. Appendix IX gives a list of Tálukdári estates under management for the collection of *jama*.

123. The local fund collection from the Tálukdári villages of the Ahmedabad Collectorate for the year under report amounted to Rs. 26,604, and a sum of Rs. 9,752 has been expended in these villages as follows:—

	Rs.
New wells	2,016
Deepening and reparing tanks	1,252
New dharmshálas	1,683
New school-houses	2,007
Repairs to dharmshálas	1,166
Repairs to school-houses	1,628
Total ...	9,752

124. The following table shows the collection and expenditure in Tálukdári villages on account of the local funds for the last five years:—

	Amount collected from the Villages.	Amount expended in the Villages.
	Rs.	Rs.
1883-84	26,402	8,090
1884-85	26,591	8,171
1885-86	26,547	6,254
1886-87	26,604	8,936
1887-88	26,604	9,752

125. It will be seen that a fair proportion of the local funds has been spent this year on Tálukdári villages.

126. Tanks and wells, or their repairs where they exist, are a great desideratum in Tálukdári villages. In some places I have seen with my own eyes the miseries of the poor villagers in this respect. In one village I have seen poor women walking through heavy sands with pots on their heads to a distance of about half a mile from their homes, and digging pits in the dried bed of a tank for water, half mixed with mud, for themselves and their cattle. This was so early as the latter part of February. What must have been the condition of the village later on? The Tálukdárs themselves are too apathetic and short-sighted to attend to this crying want; even the well-to-do of the class will not spend anything on the improvement of their villages. You are aware that the Tálukdárs are at present exempted from the payment of the full local fund cess levyable from their villages; and I have hitherto urged, for reasons explained, that no hasty action should be taken for exacting the full amount. But I think that if some arrangement can be made by which the *full* local fund cess levied from Tálukdárs will be spent for the benefit of Tálukdári villages; for, at least, some years, the Tálukdárs might be made to bear some additional strain on their resources for the real benefit of their villages; and such a measure will be in the true interest of the Tálukdárs themselves. But I do not know how in the present state of the local fund law, such an arrangement can be made. If the enhanced levy is claimed, as it will be, by the local fund Boards and merged into the expenditure of the whole táluka or district, the Tálukdári villages coming in only for such doles as might fall to their lot in the general dispensation, at intervals few and far between, there will not be that improvement of Tálukdári villages which their condition so urgently demands. In a previous report I have given the number of Tálukdári villages in which not a pie has been spent from the local funds ever since its establishment, though the cess has all along been exacted from them.

127. I have lately brought to the notice of the President of the District Local Fund Board some 10 cases in which pecuniary aid from the local fund was required for the construction or repairs of tanks, wells, &c., and am glad to say that he has granted the aid in six of them, and hope that the rest will also come in for their fair share of allottment.

128. As you are aware, the *jama* agreements or leases of the Tálukdári villages in Ahmedabad have already expired, and a new *jama* or revenue settlement of these villages, based on such a revision of their survey assessment as may be deemed equitable, is to be made. This is a most important and responsible work, in which both the interests of the State and the Tálukdárs alike demand the most scrupulous and careful attention. I have, as desired by you, submitted in my letter No. 108 of 20th February 1888, my proposals as to the manner in which the revision of assessment and the *jama* settlement should be carried out. These proposals now await the orders of Government.

Inspection of Boundary Marks of Tálukdári Villages in Ahmedabad.

129. I have, as yet, been unable to see my way to proposing any feasible and satisfactory plan for the efficient performance of this duty. I have stated in my last year's report that I had some idea of utilizing, for this purpose, the Mukhis of Tálukdári villages. But after what I have seen of the Koli and other Mukhis in many of these villages, I begin to despair of the idea. They are utterly uneducated and ignorant. Their remuneration, in many cases, is not such as to tempt a better class of men to accept the office. I have, however, for the present proposed, in my letter No. 327 of 27th June 1888, a plan by which, if approved, the existing staff of inspecting kárkúns will be increased by 50 per cent. This, though not quite sufficient, will go some way to meet the deficiency.

Estates under Sections 320 and 504 of the Civil Procedure Code.

130. There were 256 decrees under execution under Section 320 of the Civil Procedure Code at the end of 1886-87.

131. The number of decrees received for execution during the year under report was 116 against 115, 102 and 130 respectively, in the three preceding years.

132. Thus the number for the year 1887-88 (inclusive of the last year's balance, 256) received from the Courts was 372. In addition to this, 60 decrees were received under notices issued under Section 322, making a total of 432.

133. Of these—

212 were under management as per Appendix VI, Part I,
25 were under process of sale as per Appendix VI, Part II,
80 were returned to Courts, and,
115 were under enquiry.

134. Of the 80 decrees returned to the Courts—

40 have been satisfied by compromise,
2 do by sale of defendants' property,
2 returned, as no bid was made for the property,
2 recalled by Courts,
26 have been satisfied by paying the amount from the defendants' property under attachment, and
8 have been returned to the Civil Courts without execution.

135. The following table shows the manner in which the decrees received in each year and those brought over from previous years were disposed of during the last five years:—

	1883-84.		1884-85.		1885-86.		1886-87.		1887-88.	
	Number of Decrees.	Amount.	Number of Decrees.	Amount.	Number of Decrees.	Amount.	Number of Decrees.	Amount.	Number of Decrees.	Amount.
		Rs.		Rs.		Rs.		Rs.		Rs.
Returned after disposal by compromise, &c.	95	94,433	88	73,064	74	95,952	86	51,629	80	42,798
Under payment by instalments from revenues of estates taken under management	116	91,638	121	97,331	195	1,33,259	194	1,49,090	212	1,34,858
Under process of sale	25	72,599	41	83,299	22	29,628	25	29,063	25	33,686
Under enquiry	16	20,082	37	34,482	54	27,884	87	74,545	115	1,01,876
Total ...	252	2,78,752	287	2,88,206	345	2,86,726	392	3,04,337	432	3,13,218
Amount paid to creditors direct or through the Civil Courts ...	...	43,853	...	31,500	...	75,420	...	36,072	...	25,038

136. The decrees for the year 1887-88 above shown belong to the tálukas of Dhandhuka, Dholka, Sánand, Viramgám and Gogha in the Ahmedabad Collectorate, with only one exception which pertains to the táluka of A'nand in Kaira.

137. There were 12 estates under management under Section 504 at the end of 1886-87. Four were added and eight released during the year under report. Thus, the total net number under this section is eight.

138. These are all in the tálukas of Viramgám, Dhandhuka and Parántíj of the Ahmedabad Collectorate.

139. The money realized from the management and sale of the estates under decrees, and sent to the Civil Courts, amounted, for the period above-mentioned, to Rs. 25,038.

Partition of Estates.

140. Sixteen estates were shown last year under this head. One was added during the year under report, making a total of seventeen.

141. The work of partition has been completed in five of these, one is under process of partition, four have been removed from the list owing to non-agreement of sharers for partition or for other reasons, and correspondence is going on about the remaining seven, which are not at present actually under partition.

142. The villages, the partition of which has been completed, are as follows :—

Khas	...	In Dhandhuka.
Máhádevpura	...	
Jhánjharka	...	
Khámbhda	...	
Rupáwati	...	

143. The village above referred to as being under partition is that of Ukardi in Viramgám.

Suits.

144. There were 26 original suits and appeals pending at the close of the last year, and four more have been added during the year under report, making the total number to be 30.

145. The new suits that have been filed during the year are of an ordinary nature and require no remarks.

146. Of the 23 cases decided during the year twelve have been decided in favor of this Department, one was compromised, one withdrawn by the plaintiff, and one wholly and eight partly have been decided in favor of the plaintiffs.

147. The most important suits decided in favor of Government are those filed by the Thákor of Limbdi and Jiwandás Anandji of Gogha. The one disputes the right of Government to levy *jama* from the Girássias' half share of the village of Akru in Dhandhuka, and the other denies the liability of the plaintiff to pay *jama* on the jivái lands included in the $\frac{3}{4}$th shares in the villages of Ukharla and Trimbak in Gogha, which he has purchased at an auction sale. Both the plaintiffs have preferred appeals.

148. The suit filed by Sardársing Himatsing, brother of Ganpatsing Himatsing, Thákor of Sárod, to establish that he, and not Ganpatsing, is entitled to succeed to the estate has, as stated in paragraph 80, been rejected.

149. The two suits filed by Dámodar Lálbhai for the Cháro lands of Bhetási in Borsad, though for small amounts, involved the fate of a large tract of valuable land. They have been decided in favor of this Department.

150. The following table shows the cost of litigation incurred by the estates during the year under report :—

Total Expenditure incurred by the Estates.	Recovered from Plaintiffs.	Net Expenditure to Estates.
Rs. a. p.	Rs. a. p.	Rs. a. p.
722 13 0	314 6 0	408 7 0

151. This is a very moderate charge for litigation pertaining to the estates.

Financial Review.

152. The following abstract gives, at one view, the financial results of the management of estates for the year under report :—

	Number of Estates.	Gross Revenue, including previous year's outstanding Balances.	Total Revenue realized, including past year's Balance in hand.	Charges of all kinds.	Paid to Creditors.	Balance in hand at the close of the year.	Outstanding Balances written off.	Outstanding Balances at the close of the year.
		Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.
Estates under Encumbered Estates Acts	104	3,13,267	4,04,991	2,07,922	1,01,086	95,983	1,682	28,197
All other estates under management	234	1,82,514	3,02,508	1,22,296	49,200	1,31,012	2,919	31,368
Total ...	338	4,95,781	7,07,499	3,30,218	1,50,286	2,26,995	4,601	59,565

153. A comparison of the percentages of collection, remission, and outstanding balance to the total realizable revenue of the estates under management for the year under report with those of the previous four years is shown in the following table:—

	Year.	Gross Revenue including Arrears.	Amount collected during the year.	Amount remitted.	Amount outstanding.	Percentage of Collection.	Percentage of Remission.	Percentage of Outstanding.
		Rs.	Rs.	Rs.	Rs.			
Ahmedabad	1883-84	1,94,105	1,87,613	601	5,891	96	½	3
	1884-85	1,93,187	1,78,289	94	14,804	92¼	...	7¾
	1885-86	1,95,417	1,88,332	381	6,704	96	⅕	3⅘
	1886-87	2,32,126	2,09,935	2,248	19,943	90¼	1	8¾
	1887-88	2,33,793	2,06,000	2,464	25,329	88	1	11
Kaira ...	1883-84	1,05,880	99,021	3,623	3,236	93	3	3
	1884-85	1,03,220	98,164	958	4,098	95	9/10	4
	1885-86	99,356	94,666	1,412	3,278	95¼	1¼	3¼
	1886-87	1,02,003	99,759	317	1,927	97¾	⅜	1⅞
	1887-88	1,05,032	1,02,616	287	2,129	97¾	¼	2
Broach ...	1883-84	1,96,632	1,71,099	1,698	23,835	86	¾	12
	1884-85	1,77,137	1,53,327	1,657	22,153	86½	1	12
	1885-86	1,83,428	1,72,080	1,231	10,117	93¾	¾	5¼
	1886-87	1,75,740	1,62,068	1,159	12,513	92	½	7½
	1887-88	1,91,965	1,58,008	1,850	32,107	82⅓	1	16⅔
Total ...	1883-84	4,96,617	4,57,733	5,922	32,962	92	1	6
	1884-85	4,73,544	4,29,780	2,709	41,055	91	½	8½
	1885-86	4,78,201	4,55,078	3,024	20,099	95	¾	4¼
	1886-87	5,09,869	4,71,762	3,724	34,383	92½	¾	6¾
	1887-88	5,30,790	4,66,624	4,601	59,565	87⅞	⅞	11⅛

154. It will be seen that owing to the very unfavourable character of the season, the percentages of collection, this year, are lower, and those of remission and outstanding correspondingly higher, than those of the last in Ahmedabad and Broach.

155. The following table shows the average percentage of expenses of management to realizable revenue and to actual collection of each district, and of all the three districts together as a whole, for the year under report:—

Collectorate.		Tálukdári Settlement Office.	Local Expenses for collection, &c.	Total average Percentage.
Ahmedabad	On realizable revenue ...	3·23	4·68	7·91
	On actual collection ...	3·40	4·94	8·34
Kaira	On realizable revenue ...	3·65	5·63	9·28
	On actual collection ...	3·67	5·65	9·32
Broach	On realizable revenue ...	3·64	7·01	10·65
	On actual collection ...	4·04	7·79	11·83
Total average percentage.	On relizable revenue ...	3·46	5·70	9·16
	On actual collection ...	3·68	6·06	9·74

156. It will be seen that these percentages are somewhat lower than those of the last.

Legislation.

157. I have nothing new to record under the head of legislation. Both the Guardian and Wards Bill and the Tálukdári Bill, referred to in the last year's report, seem to have made no progress, and are in the same stage as before.

Resumé.

158. The following is a resumé of the operations of this Department during the year under report in all the districts under the several heads mentioned :—

1. Estates under management—338.

2. Their total revenue—Rs. 4,95,781.

3. Amount collected—Rs. 4,66,624.

4. 47 claims of creditors amounting to Rs. 20,236 settled at Rs. 13,736.

5. Decrees received from the Civil Courts for execution—116.

6. Decrees, inclusive of those brought over from previous year's executed by compromise, sale, management, &c.—292.

7. Amount paid to private creditors—Rs. 57,129.

8. Amount paid to Government—Rs. 93,157.

9. Amount paid to Tálukdárs, Thákors, &c., for maintenance and other expenses—Rs. 1,05,315.

10. Paid for Government *jama*—Rs. 1,59,282.

11. Paid for expenses of collection, supervision, &c.—Rs. 45,470.

12. Minors' money invested in Government securities and deposited in the Savings Bank—Rs. 1,500. Total amount of investment, &c.—Rs. 28,950.

13. Estates partitioned and under partition—6.

14. Original suits and appeals—30.

15. Revenue of 356 Tálukdári villages in the Ahmedabad Collectorate under the revenue charge of this office collected—Rs. 3,72,829.

16. Percentages of collection, remission and outstanding to total realizable revenue—87$\frac{7}{8}$, $\frac{7}{8}$ and 11$\frac{2}{8}$.

17. Percentages of collection and management charges to total realizable revenue and to actual collection—9·16 and 9·74.

159. I respectfully trust that the amount of work done under diverse heads of operations, and its financial and other results, will be considered satisfactory.

I have the honor to be,
Sir,
Your most obedient Servant,
PESTANJI JAHA'NGIR,
Acting Tálukdári Settlement Officer.

PESTANJI JAHA'NGIR,
Acting Tálukdári Settlement Officer.

ACCOMPANIMENT TO TA'LUKDA'RI SETTLEMENT OFFICER'S NO. 405 OF 1ST AUGUST 1888.

APPENDIX XII.

List of Civil Suits conducted by or on behalf of the Tálukdári Settlement Officer.

No.	Name of Plaintiff.	Name of Defendant.	Subject.	Remarks.
1	2	3	4	5
		SUITS PENDING AT THE CLOSE OF LAST YEAR.		
		AHMEDABAD DISTRICT.		
1	Trikamlál Vadilál, &c., heirs of Vadilál Pánáchand of Ahmedabad.	The Tálukdári Settlement Officer. The Inámdárs of Dharoda.	To recover the amount of mesne profits of the share of Ládli Begam in the village of Dharoda, which share the plaintiffs allege that they have purchased at an auction sale.	The High Court has remanded the case to the lower Court for retrial on merits.
2	Keshavlál Meghji, &c., heirs of Meghji Mulji of Dhandhuka.	The Tálukdári Settlement Officer.	To recover back the amount of rent levied from plaintiff on account of certain land in Akru which he claims to be his property.	The plaintiff has withdrawn his claim.
3	Haka Vira of Makhiáv	The Collector of Ahmedabad as Administrator of the estate of the minor Gagubha and Fulbha of Makhiáv.	To recover mesne profits of certain lands which the plaintiff claimed to be his rent-free jivái land.	Rejected with costs by the Assistant Judge.—Government Resolution No. 8682 of 9th December 1886.
4	Mahárána Shri Jaswatsingji Fattesingji of Limbdi.	The Secretary of State for India.	To establish that no jama can be levied on the portion of the village of Akru which was given to the Girássias of that village, as the jama is included in his permanently settled lump sum and to recover back the amount already paid.	The suit has been rejected with costs. Against this the plaintiff has filed an appeal which is pending.—Government Resolution No. 2714 of 1st May 1888.
5	Punja Ladha, deceased, by his heirs Jiwan and Kuwarji Punja, &c.	The Collector of Ahmedabad as Administrator of the estate of the minor Nársing Madársing of Akru.	To recover money due on a bond...	The lower Courts rejected the claim. An appeal in the High Court has been filed ; it is pending.
6	Jiwandas Ánandji of Gogha ...	The Secretary of State for India.	To establish that no more jama can be levied from him than what may be due on the land purchased by him and actually came into his possession and to recover back the excess levied from him.	The claim has been rejected with costs. The plaintiff has filed an appeal which is pending.—Government Resolution No. 8453 of 12th December 1887.
7	Kálidás Hira of Dhandhuka ...	The Collector of Ahmedabad as the Administrator of the estate of Udesing Agarsing and two other minors of Cher.	To recover money due on a bond...	The claim has been rejected with costs.
8	Khengárji Haribhai of Gorásu ...	Do. do.	Do. do.	Decree for plaintiff.
		KAIRA COLLECTORATE.		
9	Haridás Veridás and others of Nadiád.	The Tálukdári Settlement Officer.	To recover possession of certain land in Khodwad which is alleged by the plaintiff to have been purchased.	The plaintiffs obtained decree in Assistant Judge's Court, but it was reversed by the Judge in appeal by the Tálukdári Settlement Officer. The plaintiff has filed an appeal in the High Court which is pending.—Government Resolution No. 4813 of 23rd July 1887.
10	Lallu Keval, deceased, by his heir Ishwar Lallu and Morár Keval of Kaira.	The Táljukdári Settlement Officer as Manager of Rattansing's estate. The Collector of Kaira as Admistrator of Wakhatsing's estate.	To establish that no more rent can be levied from him than the amount fixed in his lease and to recover the amount levied in excess.	The claim was rejected by the Assistant Judge. In the plaintiff's appeal to the High Court the Court gave the plaint back to be presented in the District Court.—Government Resolution No. 7525 of 16th September 1885.

APPENDIX XII—*continued.*

No.	Name of Plaintiff.	Name of Defendant.	Subject.	Remarks.
1	2	3	4	5
		Kaira Collectorate—*continued.*		
11	Parbhatsing Parbatsing of Bhánpura.	The Collector of Kaira as Administrator of the estate of Takhatsing Sardársing. The Secretary of State for India.	To recover back the rent levied on certain land which the plaintiff claims to be his property.	The claim has been rejected by the Assistant Judge. The plaintiff's appeal in the High Court is rejected with costs.—Government Resolution No. 2875 of 15th April 1886.
12	Dámodar Lálbhai of Nadiád ...	Thákor Mádhavsing Kesrising of Bhetási. The Tálukdári Settlement Officer.	To recover rent of certain land and houses in Bhetási which the plaintiff alleges to be his property.	The claim has been rejected by the Assistant Judge, F. P., Kaira. The plaintiff has filed an appeal in the High Court which is pending.—Government Resolution No. 1909 of 28th March 1887.
13	Galábhai Govind of Dabhán ...	The Collector of Kaira as Administrator of the estate of minor Wakhatsing Adesing of Kaira. The Tálukdári Settlement Officer as manager of the estate of Rattansing Jijibhai of Kaira.	To recover back a certain amount of Government salámi which he alleges to have been recovered in excess of the amount due on the lands of Dabhán in his possession.	A decree passed for a portion of the claim.—Government Resolution No. 100 of 8th January 1886.

		BROACH COLLECTORATE.		
26	Sardársing Himatsing of Sárod .	Ganpatsingji Himatsingji ... The Manager of the Sárod estate.	To establish that he is entitled to the Gádi of the Sárod estate or an equal share therein.	Rejected with costs.—Government Resolution No. 3224 of 23rd May 1887.
		NEW SUITS FILED DURING THE YEAR.		
		AHMEDABAD COLLECTORATE.		
27	Wasta Shangdás of Rojka ...	The Collector of Ahmedabad as Administrator of the estate of Gagubha Dipsingji, minor, of Rojka.	To recover anklets attached for recovering certain amount of bid in the auction sale of the plaintiff's fields, and to issue injunction to levy no more from him than the customary dues.	A decree for a portion of the claim which relates to anklets has been passed.
	Bái Motiba of Makhiáv... ...	The Collector of Ahmedabad as Administrator of the estate of Gagubha and Fulbha of Makhiáv.	To recover expenses of her daughter's marriage, of maintenance of a carriage and a horse, and of grass.	The claim has been rejected.
	Oghad Odha of Nágarka ...	The Collector of Ahmedabad as Administrator of the estate of Bhura Jasa, minor, of Nágarka.	To obtain possession of certain fields and to recover rent of the same.	Pending.
		BROACH COLLECTORATE.		
30	Thákor Ráesingji Jaswatsingji, minor, by his guardian and mother Rájuba of Sigám.	The Tálukdári Settlement Officer as Manager of the estate of Jitsingji of Sigám.	To recover back certain rent of a field and house levied from plaintiff who alleges that he being the owner of the property no levy can be made.	Pending.—Government Resolution No. 3875 of 14th June 1888.

PESTANJI JAHA'NGIR,
Acting Tálukdári Settlement Officer.

APPENDIX XIII.

Note.—The sum of Rs. 36,487 refunded by Government to the Thákor of A'mod is included in columns 5 and 7 of this statement, but is not taken into account in the calculations made in paragraphs 153 and 155 of the Report.

PESTANJI JAHA'NGIR,
Acting Tálukdári Settlement Officer.

No. 2698 of 1888.

Revenue Department.

Poona, 23rd August 1888.

Forwarded to Government.

2. In the opening paragraphs the Tálukdári Settlement Officer gives lengthy quotations (of an address presented by the Tálukdárs, and of a letter addressed by him to the Collector, on the subject of the establishment of a Tálukdári school at Ahmedabad) which are scarcely necessary, and I think need not be printed.

Estates under management under Acts VI of 1862 and XXI of 1881.

3. No new estates have been brought under management in any of th districts of Ahmedabad, Kaira and Broach, and none have been released; consequently, the number in each district remains the same as at the close of the preceding year.

Financial results.

4. The financial results show that in Ahmedabad and Kaira smaller payments were made, but in Broach the amount was considerably larger. No advances were obtained from Government, and the entire payment was made from realizations from the estates. The rate of liquidation was 9½ per cent. in Ahmedabad, 11 per cent. in Kaira, and 32 per cent. in Broach. The year was by no means sufficiently unfavourable in Kaira to account for a payment of only Rs. 132 to private creditors. Otherwise the result of the year's management in this district is encouraging. The improved condition of the Maleks of Thásra is satisfactory.

5. The smaller payments in Ahmedabad are due to the unfavourable season, described in paragraph 50. In Broach, the A'mod estate was enabled to pay off its debt from a large refund obtained by the Thákor, as explained in paragraph 71.

Ahmedabad Estates.

6. In paragraphs 21 to 49 the Tálukdári Settlement Officer gives interesting details regarding some of the estates in Ahmedabad. The repairs effected to the bund at Makhiáv (paragraph 26) appear to have been judicious. The result of the substitution of cash rates for the bhágbatái system in a portion of the Makhiáv Estate (paragraph 28) will be watched with interest. But I doubt the propriety of reducing the survey jiráit rates by one-half. The description given in paragraphs 32 to 55 shows a most deplorable state of affairs in the Aghár State. The question of legislation for the amelioration of the condition of the Koli Thákardas of the Chuwal in the Virámgam Táluka has been frequently discussed, and I would refer to my remarks in paragraph 8 of my review of that year's report.

7. The Gangar Estate continues to be involved in litigation, and the suit brought by the posthumous son of the late heir-apparent is still pending. In the meanwhile, the estate remains under attachment for the security of the Government *jama*. The account given in paragraph 43 of the late Thákor's surviving son is not encouraging.

Kaira and Broach Estates.

8. The details given in paragraphs 57 to 64 regarding some of the Kaira estates, and in paragraphs 72 to 80 regarding the Broach estates are interesting, and show that all of them are receiving the careful attention of the Táludári Settlement Officer.

Minors.

9. The number of minors' estates is less by one than in the previous year, two having been added during the year, while three were released from management. Of the 37 estates, three belong to Broach and the rest to Ahmedabad. In five cases the minors have attained their majority, but pending the coming of age of the younger brothers the estates continue under management. The minor's estate referred to in paragraph 90 has formed the subject of correspondence with Government ending with this office No. 1678, dated 30th May last, and the payment of the todágirás allowance from the Surat treasury has been withheld pending the orders of Government.

10. The education of minors is engaging the attention of the Tálukdári Settlement Officer, and from paragraph 110 it is satisfactory to learn that he has been successful in inducing the guardians and relations of several to send the boys to proper schools.

Miscellaneous.

11. The management of the estate of the Kázi of Broach having been continued with the sanction of Government, has been transferred to this head, increasing the number of these estates to five. The original debt of one of these has been paid off, but a fresh debt of Rs. 5,000 has, it appears, been incurred. The Chándna Estate, which is under management for the security of the Government debt, is reported to be still in a very unsatisfactory condition.

Ahmedabad Tálukdári Villages.

12. The number of these under the revenue charge of the Tálukdári Settlement Officer remains the same as last year, *viz.* 356. The *jama* payable by these villages amounted to Rs. 3,71,508 against Rs. 3,69,985 last year. With the exception of a small sum of Rs. 95, the whole of the former amount was collected. The local fund collections amounted to Rs. 26,604, and Rs. 9,752 have been spent on useful public works in these villages. For some years past these villages have not received a fair share of the local funds, but it would appear from paragraphs 125 and 127 that during the past year they have had no reason for complaint. I see no reason why the local fund cess should be collected on the *jama* only. The villages paying the cess might be represented by a Board with the Tálukdári Settlement Officer as Vice-President. With the expenditure of their fund in the hands of this Board, the cess would assuredly become more popular, and it might be collected on the full revenue, not on the Government share.

13. The leases of the Tálukdári villages are, as stated in paragraph 128, falling in, and the report on the subject is already before Government (this office No. 1023 dated 5th April last).

Inspection of Boundary-marks.

14. The proposals referred to in paragraph 129 for the revision of the establishment maintained for this purpose have been submitted to Government under my No. 2288 dated 20th ultimo.

Execution of Civil Courts' Decrees.

15. The decrees received under Section 320 of the Civil Procedure Code are included in the special report on the subject submitted under this office No. 1200 dated 18th April 1888. No remarks are, therefore, called for in this place.

Litigation.

16. The details given in paragraph 146 show that with a single exception all the suits decided during the year were wholly or partially in favour of the Department.

Financial Results.

17. The financial results are, considering the unfavorable nature of the season in Ahmedabad and Broach, satisfactory. It will be seen from the table in paragraph 153, that the percentage of collections has never been as low as it was during the past year. There has been a fall of only 2 per cent. in Ahmed-

abad, but in Broach it has fallen from 92 to 82⅓; Kaira maintains the high percentage of nearly 98 per cent. as in last year.

18. The total cost of the establishment amounts to 9·16 per cent. of the revenue for collection against 9·60 in the preceding year.

19. Mr. Pestonji Jehángir, C.I.E., is entitled to the commendation of Government.

G. F. SHEPPARD,
Commissioner, N. D.

Note to accompany Review of Tálukdári Administration Report for 1887-88.

As this is the last report on this subject which I am likely to review, and as I have watched the working of these Acts since their commencement, I desire to offer a few general remarks.

2. The result of this well-intentioned legislation has not been altogether successful. It is a matter of notoriety, that already very many of the estates cleared under these Acts are again seriously encumbered. In some cases, the second state of the Talukdárs is even worse than the first.

3. The causes ordinarily assigned for this are the reckless improvidence of the Tálukdárs: the exaggerated view they entertain of their own position: their wasteful expenditure on marriages and other domestic ceremonies: their open-handed extravagance at all times; and the enlargement of credit which followed the recognition of absolute proprietorship in Section 20 of Act VI of 1862.

4. But experience has shown that there are other causes, perhaps *not* so well known. The *vox populi* assigns equal influence to the following factors, *viz*:—

(1) Litigation—most of which is wholly unnecessary—with co-sharers.
(2) Intrigues of Kárbháris.
(3) Malpractices of the Sávkár—creditors.
(4) Extravagance of sons.

5. It is, I believe, the fact that in most cases the Kárbhári is a creditor of the Tálukdár. The former encourages quarrels and litigation among the Bháyáts, helps with funds, and thus gets his master into his power. Still more helpless are the Tálukdárs in their relations with their Wánia creditors. Ráo Sáheb Narsilál Rewádás, who, in a late complaint against a Bania, was deputed to examine the books of the latter, found that the man had intervened between certain Tálukdárs, and their sharers, and had obtained bonds to the amount of a lákh and a half, without having advanced a single rupee.

6. In another case, the sharers having quarrelled, executed bonds for Rs. 15,000 in favour of the Wánia. The dispute was settled amicably, and the Bháyáts asked for return of the bonds. This was refused, and the Civil Courts have granted decrees thereon. Such examples might be multiplied.

7. I have not had time to obtain anything like a complete list of debts already contracted by the Tálukdárs, whose estates have been recently released, but the following instances may be given:—

Gángad was released with a cash balance of nearly half a lákh. It has already incurred new debts to about 4 times that amount, or nearly 5 years' revenue.

Gamph owes some 2 lákhs.

Sádakpura, *Chhaniár* } Some 12 years' revenue.

Bhagápur 10 years' do.

Dadhána, *Panar*, *Ukardi* } 7 years' do.

Dehávád 5 years' do.

Bhankoda 4 years' do.

Ránpur and many others being heavily involved.

8. A very bad case is that of Kuna. The estate of this Thákor, then a minor, was given into my charge when Collector of Kaira. With much trouble I relieved it from debt, but in an incredibly short time the young man had to seek the benefit of the Act. A second time the estate was freed, but it has again become so involved that a large part of it has had to be sold.

9. The Bill before Council will do much for the future, but what is to become of the above estates, and of many others in a similar position? I think that it would be only equitable to give all equal benefit, and to provide for a *second* application of the Act to such cases as the above. All would then start clear and fair, and there will be good hope of the end contemplated by Government being fulfilled.

10. I am moreover of opinion, that in settling the new jama, all portions of the estates alienated by sale or mortgage should pay full assessment. I have some doubt whether Section 24 of the Bill, when read with paragraph 2 of Section 35, will permit this being done. If the Tálukdár himself is unable to pay the enhanced *jama*, as will, no doubt, be the case with many of the Koli Thákardás, I am not sure that this can be recovered from the actual occupants of land *already* alienated. But I think, that as it was declared in the preamble of Act VI of 1862 that such land "cannot be lawfully alientated", it would not be inequitable to allow Section 24 to have retrospective effect.

11. I understand that the Thákors of Limdi and Wadhwán claim *ownership* over more than 100 of our tálukdári villages, which they really hold only as *mortgagees*. The *jama* of these is supposed not to be enhanceable. I think that Government should require the said States to accept the mortgage-money, or to prove their title to hold on a fixed *jama*.

12. There are many large villages in Dhandhuká and Gogha, with large areas of waste lands, which are not taken up, owing to the poverty of the Tálukdárs, and want of fixity of tenure. A guaranteed rate of assessment for 20 years would be likely to attract cultivators, and would be beneficial to the holders and to Government.

13. The bhágbatái system, excellent and useful in its day, is now an anachronism, and tends to disputes and difficulties. The new leases should provide for a survey and for a bighoti tenure.

G. F. SHEPPARD,
Commissioner, N. D.

Poona, 23rd August 1888.

Annual Reports: Administration Report of the Tálukdári Settlement Officer for the year 1887-88.

No. 2007.

REVENUE DEPARTMENT.

Bombay Castle, 14th March 1889.

Memorandum from the Commissioner, N. D., No. 2698, dated 23rd August 1888—Forwarding with his remarks a letter No. 405, dated 1st idem, from the Tálukdári Settlement Officer, who submits his Annual Administration Report for 1887-88.

RESOLUTION.—The number of encumbered estates under management under Acts VI of 1862 and XXI of 1881 was the same as in the previous year. Nine estates removed from the operation of the former Act continued to be managed by the Tálukdári Settlement Officer. The number of minors' estates in his charge was reduced from 38 to 37, and that of miscellaneous estates increased from 4 to 5.

2. No advances were made by Government to encumbered estates during the year. The payments of debt by those estates and the amounts of their debts at the beginning and close of the year are shown in the following table. The difference between the amount of the payments made and the reduction of debt effected is due to the former being inclusive of the interest which accrued during the year.

	Debt at beginning of year.			Payments.			Debt at end of year.			Reduction of debt.	Percentage reduction of debt.
	To creditors.	To Government.	Total.	To creditors.	To Government.	Total.	To creditors.	To Government.	Total.		
	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	Rs.	
Ahmedabad	59,318	1,27,856	1,87,174	4,195	13,971	18,166	55,123	1,20,253	1,75,376	11,798	6¼
Kaira	10,217	2,66,005	2,76,222	132	30,416	30,548	10,085	2,48,975	2,59,060	17,162	6¼
Broach	47,875	1,14,105	1,61,980	3,602	48,770	52,372	44,273	71,259	1,15,532	46,448	28¾
Total ...	1,17,410	5,07,966	6,25,376	7,929	93,157	1,01,086	1,09,481	4,40,487	5,49,968	75,408	

3. The total reduction of debt was slightly greater than in the previous year, but the increase was confined to the Broach District, where it was due to the Thákor of A'mod having been enabled by the receipt of a large refund of upwards of Rs. 36,000 to entirely clear his large estate of debt. In both Ahmedabad and Kaira the reduction was extremely small and the explanations offered are hardly sufficient.

4. The results of the collections of jama in the Ahmedabad Tálukdári villages in the revenue charge of the Tálukdári Settlement Officer are satisfactory.

5. The Tálukdári Settlement Officer should be asked to explain in greater detail in future reports the financial results of his management of estates, of which he has given a summary in paragraph 152 of his report, but regarding which Government are not in a position to form a definite opinion. The Tálukdári Settlement Officer may be reminded, however, that increase of

Digitized with financial assistance from

Government of Maharashtra

on 01 February, 2020

"charges," which have actually been increasing steadily in the case of encumbered estates for some years past, will have to be very closely watched if the increase in payments to Government and other creditors, necessary in order to clear these estates of debt *within a reasonable period*, is to be rendered possible.

J. DE C. ATKINS,
Under Secretary to Government.
